

Material safety data sheet
According to EU Regulation 1907/2006 in the current version
HORSE CHESTNUT EXTRACT

1. Identification of the substance/mixture and company

Trade name: HORSE CHESTNUT EXTRACT
I.N.C.I. Aqua, Glycerin, Aesculus Hippocastanum Seed Extract, Sodium Benzoate, Potassium Sorbate, Citric Acid
CAS No. : /
EINECS No. : /
REACH pre-registration No. : /
Utilization: Raw material for cosmetics
Supplier company identification:
Ekokoza s.r.o.
Fryčovice 297, 73945, Fryčovice
IČ: 07508247, eshop@ekokoza.cz
Nouzové telefonní číslo: +420224919293 , +420224915402 (telefon 24hod/denně) Toxikologické informační středisko, Na Bojišti 1, 128 08 Praha2)

2. Hazards Identification

Classification of the substance : not classified according to the 1272/2008/CE regulation.

Particular indications concerning the hazards for human and environment : none

According to the european directives, the usual measures of security must be applied in case of manipulation of chemicals.

The product is not identified according to the european directives/the national respective laws 2008/58/CE (30eme ATP) ; 2009/2/CE (31eme ATP) ; 2006/8/CE

Results of the PBT and vPvB evaluations :

- PBT: not applicable.
- vPvB: not applicable.

3. Declaration of ingredients

Main constituents	C.A.S.	EINECS	Percent %
Glycerin	56-81-5	200-289-5	>44.7
Aqua	7732-18-5	231-791-2	>44.7
Aesculus hippocastanum seed extract	8053-39-2	232-497-7	<10
Conservateurs			
Citric Acid	77-92-9	201-069-1	0.2
Sodium benzoate	532-32-1	208-534-8	0.2
Potassium sorbate	24634-61-5	246-376-1	0.2

Ekokoza s.r.o.
Fryčovice 297, 73945, Fryčovice
IČ: 07508247, eshop@ekokoza.cz

Material safety data sheet
According to EU Regulation 1907/2006 in the current version
HORSE CHESTNUT EXTRACT

4. First aid measures

4.1 Description of first aid measures

Eye contact : flush eyes with water during several minutes, by massaging eyelids.

Skin contact : normally, the product does not irritate the skin. In case of irritation, rinse with soap and water

In case of excessive inhalation : move person to fresh air

Ingestion : rinse the mouth with water

You can get medical attention.

5. Fire fighting measures

Extinguishing media : foam, powder, CO₂

Particular risk : for high temperature, combustion and production of acrolein

Protection of firefighters : wear self-contained breathing apparatus.

Be careful during the fight of chemicals

6. Accidental release measures

6.1 Personal precautions, protective devices and emergency procedures

Individual precautions, equipment of protection and emergency procedures : not necessary

6.2 Environmental precautions

Precautions for the environmental protection : dilute the product with water

Avoid spillage into sewerage or natural environment.

Methods and equipment for cleaning : collect liquids by absorbing product (sand, kieselguhr, sawdust, ...).

7. Handling and storage

7.1 Precautions for safe handling

Handling : normal work and hygiene practises for handling non hazardous product. Don't smoke, neither eat, nor drink in the working zones.

7.2 Conditions for safe storage, including any incompatibilities

Storage : indifferent packaging

8. Exposure controls / personal protection

General measures of security and hygiene : the usual measures of security must be applied in case of manipulation of chemicals.

Safety glasses and gloves may be worn. Slip proof shoes may be worn where spills may occur

HORSE CHESTNUT EXTRACT

9. Physical and chemical properties

9.1 Information on physical and chemical properties

Appearance: liquid yellow to brown

Odor: characteristic

pH-value: 4 - 6

Flash point: > 95 °C

Density : 1.070 – 1.160 g/cm³

Water solubility: Completely soluble

Miscible with alcohol

Autoignition T°: not applicable

Autoignition: does not ignite spontaneously

10. Stability and reactivity

10.1 Responsiveness

Stable under normal handling, storage and usage conditions.

10.2 Chemical stability

No data available

10.3 Possibility of dangerous reactions

Unknown

10.4 Conditions to avoid

No other available important information.

10.5 Incompatible materials

No other available important information.

10.6 Hazardous decomposition products

For high temperature, combustion and production of acrolein

11. Toxicological information

No data available on this substance.

Data for the glycerin (Literature) :

Acute toxicity :

LD50 (oral rat) : 27 200 mg /Kg

LD50 (oral mouse) : 23 000 mg /Kg

LD50 (oral guinea pig) : 10 000 mg /Kg

LD50 (dermal guinea pig) : 56.75 mg /kg

Irritating and corrosive effects :

skin irritation : not supposed to be irritant

eyes : not supposed to be irritant

Repeated dose toxicity :

oral : NOAEL (chronic rat) : 8000 - 10 000 mg /Kg

Ekokoza s.r.o.

Fryčovice 297, 73945, Fryčovice

IČ: 07508247, eshop@ekokoza.cz

Material safety data sheet

According to EU Regulation 1907/2006 in the current version

HORSE CHESTNUT EXTRACT

dermal (subchronic rabbit) : the effects following repeated dermal application of glycerin was examined. There were no effects noted in rabbits dosed 8 hours/day, 5 days/week for 45 weeks with dose levels as high as 4.0 ml/kg. Using a density of 1.2611 g/cm³ at 20 °C, a dose of 4.0 ml/kg corresponds to 5040 mg/kg/day

Sensibilization : not supposed to be sensitizing

Other more information : natural substance

12. Ecological information

General information : do not allow undiluted product or large quantities to reach ground water, water course or sewage system

Data for the glycerin :

Environmental Precautions : Prevent from entering into soil, ditches, sewers, waterways and/or groundwater.

Biodegradation in water : biodegradable under 24H

Short-term toxicity to fish :

LC50 (96H) : 54 000 mg /l (Salmo gairdneri or Oncorhynchus mykiss)

LC50 (24H) : >5000 mg /l (Carassius auratus)

Short-term toxicity to aquatic invertebrates :

EC50 (24h) : >10 000 mg /l (Daphnia magna)

Toxicity to algae and cyanobacteria : EC3 : 2 900 mg /l (Microcystis aeruginosa)

EC3 : >10 000 mg /l (Scenedesmus quadricauda)

Toxicity to microorganism :

The toxicity threshold (comparable to a NOEC) in a 16 hour study was >10 000 mg./L.

13. Disposal considerations

Destroy according to local, state and federal regulations

Avoid the discharge in the environment.

Recommended cleansing agent : water, if necessary with cleaning

14. Transport information

Product is not classified for ADR (road, directive 94/55/CE), RID (rail, directive 96/49/CE), IMDG (sea), ICAO-TI nor for IATA-DGR (air)

15. Regulatory information

This product is not classified according to the 1272/2008/CE regulation.

HORSE CHESTNUT EXTRACT

16. Additional information

16.1 Abbreviations:

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.
CAS: Chemical Abstracts Service (division of the American Chemical Society).
CLP: Classification, Labeling, Packaging.
DNEL: Derived No Effect Level.
EINECS: European Inventory of Existing Commercial Chemical Substances.
GHS: Globally Harmonized System of Classification and Labeling of Chemicals.
IATA: International Air Transport Association.
IATA-DGR: Dangerous Goods Regulation by the "International Air Transport Association" (IATA).
ICAO: International Civil Aviation Organization.
ICAO-TI: Technical Instructions by the "International Civil Aviation Organization" (ICAO).
IMDG: International Maritime Code for Dangerous Goods.
INCI: International Nomenclature of Cosmetic Ingredients.
LTE: Long-term exposure.
PNEC: Predicted No Effect Concentration.
RID: Regulation Concerning the International Transport of Dangerous Goods by Rail.
STE: Short-term exposure.
STEL: Short Term Exposure limit.
STOT: Specific Target Organ Toxicity.
